Administrative regulations are not part of Board policy and may be altered by the administration without Board action. Administrative regulations may not conflict with Board policy or with applicable law.

Section 3. Limitations Of Policy/Administrative Regulations

Board policies and administrative regulations are not intended and shall not be construed to supersede or preempt any applicable law. Consequently, all Board policies and administrative regulations shall be given both an interpretation and application that is lawful. The Board shall determine the final interpretation of its policies, and the administration shall determine the final interpretation of its regulations.

Board policies and administrative regulations are limited by legal constraints, as are the rights of those to whom Board policies and administrative regulations apply, and are not intended to give an individual a cause of action not independently established in law.

Board policies and administrative regulations shall not preempt, create, supplant, expand or restrict the rights or liabilities of students, employees, taxpayers or others within the school community beyond those established in law, and are not intended to restrict or limit individuals in the school community from pursuing any claims or defenses available under applicable law. Board policies and administrative regulations are not intended to be interpreted as influencing the disposition of a particular civil action.

Section 4. Exceptions

Exceptions to any policy or the application of any policy may be made if requested or recommended in accordance with the established Board procedure.

Section 5. Rules Of Construction

In ascertaining the intent of the Board in adopting a policy or of the administration in establishing a regulation, the following presumptions, among other legally applicable presumptions, may be used:

- a. That neither the Board nor the administration intends a result that is absurd, impossible of execution or unreasonable.
- b. That neither the Board nor the administration intends to violate the federal or state Constitutions or any other applicable law.

If any policy or administrative regulation can be given multiple interpretations, both constitutional and unconstitutional, or both lawful and unlawful, the Board and the administration intend that only the constitutional and the lawful interpretations shall be valid, and that neither an unconstitutional nor an unlawful interpretation was intended.
